

11th European Conference on Protective Clothing

Protective, Smart, Sustainable

European Society of Protective Clothing

20-23 May 2025

Pine Bay Holiday Resort,
Kuşadası/Aydın - TÜRKİYE

The **11th European Conference on Protective Clothing** is organized by the **European Society of Protective Clothing (ESPC)**. ESPC was founded in 1997 in Denmark. Since 2000 the ESPC organizes every two-three years the European Conference on Protective Clothing (ECPC). The aim of the European Conference on Protective Clothing series is to promote research and cooperation in the area of personal protection.

The theme of the 11th ECPC is **“Protective, Smart, Sustainable”**. The smart aspect of protective clothing offers attractive opportunities to improve safety, comfort and functionality. The integration of sustainable practices regarding environmental impact is changing the way we approach protective clothing production and design.

The conference has become a platform to disseminate, exchange and discuss ideas, research results and project developments related to protective clothing, with a strong focus on user protection and comfort. The conference brings together researchers, designers, manufacturers, purchasers, health and safety experts, end users, public authorities (procurement) and legislators from the protective clothing sector.

The **11th European Conference on Protective Clothing** will be held in **Pine Bay Holiday Resort, Kuşadası - TÜRKİYE** on **May 20-23, 2025**. We would be delighted to see you at the conference.

Assoc. Prof. Dr. Bengi KUTLU
Chair
